PROFESSIONAL EXPERIENCE

Manager of Technical Studies BBI International Denver, CO May 2007 – Jan. 2010

- Managed a four-person international team that identifies, evaluates, and presents strategic opportunities for renewable technology applications to wide variety of client interests.
- Analyzed technical and economic viability and commercialization potential of biomass utilization technologies and products, including butanol, ethanol, biodiesel, intermediate chemicals, gasification, pelletizing, and algal production systems.
- Ensured quality client relations through entire project life-cycle: qualify potential customers, develop proposals, negotiate contracts, complete contractual obligations, and present project results, to produce ‘raving fans’ instead of simply satisfied customers.
- Communicate company insight at national and international industry conferences.

President and Founder Paradigm Biogas Company, LLC Denver, CO Feb. 2005 – May 2007

- Envisioned, developed, and implemented business plan for consulting firm with the mission of ‘Driving the Future of Renewable Fuels’.
- Cultivated and utilized a broad associate network of biofuel and petroleum fuel producers, distributors, farmers, government entities, advocacy groups, and businesspeople.
- Promoted, sold, and executed project development services for successful foundation grant, state environmental status report, and biodiesel production facility.

Environmental Specialist I Colorado Water Quality Control Division Denver, CO April 2004 – Oct. 2005

- Mediated negotiations amongst regulated entities, advocacy organizations, interested citizens, and staff members, striving for fair and balanced application of state water quality law.
- Maintained regulatory compliance status of over 600 commercial entities, which included investigation of water quality violations and development of strategies for enhanced water quality protection.
- Prepared, coordinated, and executed over 20 formal enforcement actions.

ADDITIONAL EXPERIENCE

Colorado Governor’s Biofuels Coalition Denver, CO Sept. 2007 – current

Elected voting member of Coalition Steering Committee; assist in implementing federal funding for biofuel distribution infrastructure and determining statewide biofuels legislation.

Denver Biodiesel Denver, CO March 2006 – current

Founded satellite biodiesel fuel distribution and waste oil collection cooperative in Salida, CO; serve on

Board of Directors; manage fuel acquisitions and logistics at Denver and Salida co-op locations.
